Lady Hornets late-season win streak snapped

By Chris Johnson
REPORTER

After things were finally put in place in the regular season calendar rolled towards late September volleyball, the Scales Mound Lady Hornets started winning. A success streak was built and the conference race became a little more involved. Then Lena-Winslow showed up and put the breaks on the early October ride.

On Thursday, Oct. 5, the Lady Panthers knocked down the Lady Hornets in straight games by scores of 25-19 and 25-23. The loss halted the late-season stretch that has seen Scales Mound win four of their last seven series, with a tie against Paw Paw registered during the streak.

The Lady Hornets fell to West Carroll on Sept. 23, as Tournament play moved into the late games, by scores of 25-17 and 25-18. They responded a match later as they shut out Christian Life two games to none.

The Lady Hornets won the opener 25-18 and topped it with a more exciting 25-20 nightcap.

NUIC games resumed on Thursday, Sept. 28 as the Lady Hornets avenged their one-week earlier loss to the West Carroll Lady Thunder. In the conference clash Scales Mound opened strong and closed the first game with a 25-18 win. They were even stronger in the second quarter as they blew past the Lady Thunder 25-10. The win streak continued into Monday, Oct. 2 as Scales Mound upset Eastland.

The Lady Hornets took control at the serve and supported it at the front line as they powered their way to team-earned 25-17 first game decision. Eastland was a lot stronger in the second game. They knew the night would be over soon if they didn't force at least a third game.

They got it done with a 25-19 decision to make it 1-1 with game three to play.

The serves were shared and the points collected in bunches by both teams. A feeling of "whoever got the last serve chance was probably going to pull it out" began to grow with fervor. The back-and-forth match pushed into the 20's. Time was called and the two teams regrouped.

Scales Mound got early control in the race for the final points and managed to keep the Lady Cougars scurrying for digs. The Lady Hornets won game three 25-23.

Blackhawks snare playoff-qualifying win

By Chris Johnson
REPORTER

The toughest stretch of the Stockton Blackhawks football season has begun and so far things are turning out exactly like they were drawn up, at least with the wins collecting. The Polo Marcos picked up the loss and Stockton moved to 5-0 in the NUIC-Upstate with the 49-21 win on Friday night. Their fifth win of the season also makes them playoff-eligible. A six-win season is a guarantee of post-season play. Looking at Stockton's schedule though, it does appear five should do it.

By looking at the total number of wins of the opponents faced by Stockton this year, another number is forged. That number is what officials refer to as playoff points. The higher the playoff points usually means a team played a pretty rigorous schedule. Five wins shows they won more than half of them.

The Blackhawks took the field in their week seven match with a 4-2 season mark. They had accumulated 30 playoff points already this season. Moweaqwa Central A&M, with a similar mark, had more playoff points than Stockton, across the State of Illinois. No team with a 6-1 or 7-0 record even received that many. Only 3-3 Morrison has more points than Stockton this year, considering teams who call northern Illinois home. They had 33.

Stockton has won four of their last five games and they beat, potentially, three playoff-bound teams. They knocked off Milledgeville to start

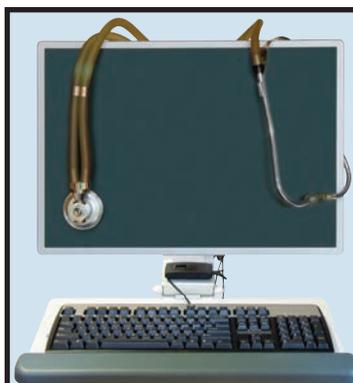

the stretch 22-20. They lost to 2A, probable-designee, West Carroll in week four 14-0. The current three game win streak began against River Ridge, following a 34-0 decision and continued at Ashton-Franklin Center in week six, as the Blackhawks came away with the 45-6 win.

There are only two games left in the regular season now and the closing stretch will stay tough. The final third of the season wrapped up this past Friday night over 4-3 Polo and it continues against Freeport Aquin on Friday.

The match with the Bulldogs this week could be for the Upstate Title

outright. A win by Stockton will give the Bulldogs their first conference loss of the year. They will be in a statistical tie with Stockton for first place. Stockton would claim bragging rights over Aquin with the win though. It could also seriously affect seeding, which takes place after the final plays of the season are called net Friday, Oct. 20..

The 2017 regular season closes on the road at Orangeville and the Broncos are seriously wanting to get a shot at hosting their opening round game. They entered the week with a 4-3 record, two games behind the leaders in the loss column.

Warren Public Library to host author Mike Mullin

The Warren Township Public Library will be hosting author Mike Mullin at 6 p.m. on Tuesday, Oct. 17. This event is open to the public.

Mullin's first job was scraping the gum off the undersides of desks at his high school. From there, things went steadily downhill. He almost got fired by the owner of a bookstore due to his poor taste in earrings. He worked at a place that showed slides of poop diapers during lunch (it did cut down on the cafeteria budget). The hazing process at the next company included eating live termites raised by the resident entomologist, so that didn't last long either. For a while Mike juggled bottles at a wine shop, sometimes to disastrous effect. Oh, and then there was the job where swarms of wasps occasionally tried to chase him off ladders. So he's really glad this writing thing seems to be working out.

Mike holds a black belt in Songahm Taekwondo. He lives in Indianapolis with his wife and her three cats. His debut novel, *Ashfall*, was named one of the top five young adult novels of 2011 by National Public Radio, a Best Teen Book of 2011 by Kirkus Reviews, and a New Voices selection by the American Booksellers Association. He is represented by Kate Testerman of kt literary.

Madigan and 13 Attorneys General pledge lawsuit against U.S. EPA for ignoring key clean air deadline

Attorney General Lisa Madigan and 13 other attorneys general today file a notice of intent to sue the U.S. Environmental Protection Agency (EPA) for failing to meet the Clean Air Act's statutory deadline for designating areas of the country impacted by unhealthy levels of ground-level ozone, known as smog.

In August, Madigan and a coalition of attorneys general sued the EPA for illegally delaying the designations, and the following day, the EPA reversed course and withdrew the notice extending the deadline. However, this week, the EPA missed the statutory deadline of Oct. 1 for smog designation.

Reducing smog levels is vital to protecting Americans from dangerous pollution. According to the

American Lung Association, over 115 million Americans breathe harmful levels of smog, which often travels far distances from other states with less stringent clean air regulations. Designating areas with unhealthy smog levels plays a key role under the Clean Air Act in addressing the pollutant's severe harms to public health and triggering requirements for state-specific plans and deadlines to reduce pollution in the designated areas.

"The U.S. EPA's inaction is unacceptable when it is well known that smog leads to severe health problems particularly for children and older people," Madigan said. "If U.S. EPA continues to abdicate its role to protect our environment and health, I will ask a court to require U.S. EPA to fulfill its duty under the Clean Air Act to ensure that people across the country are protected from dangerous pollution."

The notice of intent to sue was filed by Madigan and the attorneys general of California, Connecticut, Iowa, Maine, Massachusetts, Minnesota (through the Minnesota Pollution Control Agency), New York, Oregon, Pennsylvania, Rhode Island, Vermont, Washington, and the District of Columbia.

In October 2015, the EPA strengthened the national air quality standards for smog. The Clean Air Act requires that the EPA, within two years after issuance of new or revised standards, designate areas of the county that are in "attainment" or "non-attainment" with these public health and welfare standards. In

the case of the 2015 smog standards, EPA was required to issue attainment or non-attainment designations by Oct. 1.

However, on June 28, 2017, EPA Administrator Pruitt published a notice extending the deadline for the smog designations for all areas in the country for one year. On Aug. 1, Madigan and a coalition of 16 attorneys general sued the EPA for illegally delaying the designations. The next day, EPA abruptly reversed course and announced it was withdrawing the designations delay, although it remained equivocal on whether it would meet the Oct. 1 deadline.

As of this week, EPA has failed to make the required designation of areas of the country impacted by unhealthy levels of smog, missing the Oct. 1 deadline and violating the Clean Air Act. Today's notice of the coalition's intent to sue over EPA's illegal inaction fulfills the Act's requirement that parties provide a 60-day notice prior to filing a lawsuit.

The designation of areas for national air quality standards is a key statutory obligation under the Clean Air Act and for protecting the public's health. For areas designated as in non-attainment with the standards, states must adopt "implementation plans" – a collection of actions that the state will undertake to reduce pollution in order to ensure the standards will be met in those areas. The deadlines for submitting implementation plans – and for ensuring that air quality standards are met within designated areas – are

both tied to the date of EPA designations.

According to EPA, the 2015 updated smog standards will improve public health protection, particularly for at-risk groups, including children, older adults, people with lung diseases such as asthma, and people who are active outdoors, especially outdoor workers. In fact, the EPA estimated that meeting the new smog standards would result in net annual public health benefits of up to \$4.5 billion starting in 2025 (not including California, where a number of areas have longer to meet the standards), while also preventing approximately:

- 316 to 660 premature deaths;
- 230,000 asthma attacks in children;
- 160,000 missed school days;
- 28,000 missed work days;
- 630 asthma-related emergency room visits; and
- 340 cases of acute bronchitis in children.

Smog forms when nitrogen oxides, volatile organic compounds, and carbon monoxide emitted from power plants, motor vehicles, factories, refineries, and other sources react under suitable conditions. Because these reactions occur in the atmosphere, smog can form far from where its precursor gases are emitted and, once formed, smog can travel far distances, which is why, despite enacting stringent in-state controls on sources of these pollutants, many states are not able to meet federal health-based air quality standards for smog on their own.

Congress is complicit in gun violence if we don't act

Fellow Illinoisan, The worst mass shooting in modern U.S. history occurred last Sunday night in Las Vegas, Nevada. The carnage was horrific - 58 lives were lost and over 500 people were wounded. Firing hundreds of bullets from a room on the 32nd floor of a hotel, the shooter turned a country music festival into a war zone. There are hundreds of families and communities who have been devastated by this horrendous crime. My thoughts are with those families and will be for a long time. I want to thank law enforcement and first responders who ran towards gunfire to save lives.

It is unthinkable that this kind of tragedy could take place in the United States of America — but it's now becoming a regular occurrence. The American Medical Association has declared that gun violence in America is a public health crisis. On an average day, 300 Americans are shot and about a third of them will die from those gunshots. We can't let this become the new normal. We can't sit back and shrug our shoulders

as 30,000 Americans are shot and killed year after year.

After a mass shooting, we go through a cycle of grief, outrage and then silence. We must break that cycle and do something to prevent the next massacre and reduce the daily toll of shootings in our neighborhoods. As lawmakers, we are supposed to pass laws to make America safer. Families have been devastated because of gun deaths on the streets of Chicago, at a concert in Las Vegas, at a movie theater in Aurora, at a night club in Orlando, at an elementary school in Newtown, and in countless more communities across America. No single law or policy would prevent every shooting death, but we have to start working together on common sense steps that will address this public health crisis and save lives.

We have the power to prevent shootings and spare families the unimaginable pain that so many in Las Vegas are feeling today — let's act on it. Sincerely, U.S. Senator Dick Durbin.

Congresswoman Bustos votes against Speaker Ryan's tax breaks for billionaires' budget

Congresswoman Cheri Bustos (D-IL) voted against Speaker Ryan's Republican budget plan which would give massive tax breaks to billionaires at the expense of hardworking families.

"Instead of presenting a budget that will strengthen working families, Washington Republicans voted to give massive tax breaks to billionaires," said Congresswoman Bustos. "This budget lays the groundwork for deep cuts to programs our seniors depend on such as Medicaid, Social Security - it even raises the Medicare eligibility age. At a time when so many across the heartland are struggling, their budget even raises taxes on working families. It's deeply disappointing to see such a partisan agenda moving forward when we should be working on bipartisan solutions to put hardworking families first again."

- The Republican budget calls for:
- A \$1.1 trillion dollar cut to Medicaid over ten years.
 - \$487 billion in Medicare cuts

over ten years.

- An increase in Medicare eligibility age to 67.
- Replacing Medicare's guaranteed benefits for future retirees with vouchers toward the purchase of a private health plan or traditional Medicare.
- A cut in Social Security Disability Insurance benefits, which it

describes as "a first step" to Social Security reform.

- \$50 billion in mandatory cuts to veterans' benefits over the next ten years.
- An average of \$230,000 in annual tax cuts to millionaires.
- Less than 10 percent of its benefits will go to households earning less than \$100,000.

CHURCH NOTES

Unitarian Universalist Church of Stockton to meet at Apple Canyon Lake Clubhouse

The Unitarian Universalist Church of Stockton will meet at the Apple Canyon Lake Clubhouse at 10:30 a.m. on Oct. 22. This church was founded in 1899 as a Christian Universalist church, joined with the Unitarians in the 1960's to become the Unitarian Universalist Church. Today, we are an open-minded religious community that is guided not by a set creed or dogma, but by a free and responsible quest for truth and meaning in our lives and peace and justice in our world.

Reverend Armida Alexander comes to us with a background in education and story-telling. She will tell stories from the faiths of Buddhism, Islam, Christianity, and Stand-Up Comedy in her so-called sermon about spiritual awakening. You are invited to be with us for an informative and spirited hour. Bring your family, friends, good will and curiosity. No follow-up phone calls, just an open door.

fund has been established in Jimmy's memory. Family and friends are invited to share in Jimmy's life at www.lawjonesfuneralhome.com.

Jimmy was born Nov. 2, 1933, in Savanna, Illinois, the son of James and Helen (Plattenberger) Thulen. He attended Savanna Schools and graduated high school with the Class of 1951. Jimmy joined the United States Army in 1953 and later joined the Army Reserve before being honorably discharged at the rank of Corporal. On Aug. 18, 1963 Jimmy married Dorothy Smith. They celebrated 37 years of marriage before Dorothy's death in 2001.

Jimmy started his law enforcement career as security officer at the Savanna Army Depot. He later became a police officer in Savanna and Lanark. Jimmy was promoted to the Lanark Chief of Police. In 1970, Jimmy ran for Carroll County Sheriff and won, serving as the Sheriff from 1970-1986. Jimmy also operated Thulen's Pub in Savanna for a couple years, until retiring.

After retirement, Jimmy continued working as a Janitor at the Savanna Army Depot for many years. He was a member of the Savanna VFW Post # 2223 and the Mt. Carroll American Legion.

Jimmy enjoyed cutting wood, hunting, reading and playing cards, especially Euchre. He enjoyed helping those in need and would often drive his fellow veterans to appoint-

ments in Iowa City. Most of all, Jimmy loved getting together and spending time with his family and friends.

Jimmy will be dearly missed by his children. Joseph Thulen of Savanna, Jason (Vicky)

Thulen of Savanna, Patricia (Kevin) Krug of Elizabeth, Illinois, and Jonathon (Jeannie) Thulen of Morrison, Illinois; ten grandchildren; seven great-grandchildren; and a brother, Jack (Jennifer) Thulen of Thomson, Illinois. He is preceded in death by his parents; his wife, Dorothy; three sisters, Delores Goss, Betty Thulen, and Harriet Berthoff; and a step-son. Gary Mann.

MARVIN M. KRUG

Marvin M. Krug, age 92, of Elizabeth, Illinois, passed away Sunday, Oct. 1, 2017, at home. Cremation Rites have been accorded. A memorial service was held Oct. 9, at Trinity Lutheran Church, Derinda, Illinois. Burial will take place in Derinda Trinity Lutheran Cemetery. A memorial fund has been established in Marvin's memory. Family and friends are invited to share in Marvin's life at www.lawjonesfuneralhome.com.

Marvin was born Nov. 14, 1924, in Derinda Township, the son of Adolph and Lillian (Groezinger) Krug. He attended Elizabeth High School and graduated with the Class of 1942. On Feb. 21, 1958, Marvin

married Carol Mueller at St. Matthew's Lutheran Church in Galena, Illinois. They celebrated 53 years of marriage before Carol's death in November 2011.

Marvin farmed around the Elizabeth area his whole life. After he sold his last head of cattle in 1988, Marvin rented out the farm. Marvin continued to work at various places including Chestnut Mountain, and Krug Lawn Maintenance. This allowed Marvin and Carol to spend time together and travel across the country. He was a former member of the Elizabeth Fire Department and was a longtime member of the Trinity Lutheran Church, where he served on the church council. Marvin enjoyed fishing, antique farm machinery, and listening to Big Band music. Most of all, he cherished the time spent with his family and friends.

Marvin will be dearly missed by his three children, Janice (Ronny) Appleby of Hazel Green, Wisconsin, Brian Krug of Freeport, Illinois, and Kevin (Patricia) Krug of Elizabeth; six grandchildren, Timothy, Megan (Fiancé Spencer Schwartz), and Stephanie Appleby; and Adam (Fiancé Bridget Johnson), Jacob, and Jared Krug; and two great-grandsons, Parker and Brennan Appleby. He is preceded in death by his parents, Adolph and Lillian Krug; his wife, Carol; and granddaughter, Michele Appleby.

Protect yourself and your family with a flu shot!

Influenza ("flu") isn't anything to mess around with – it can be serious or even deadly for elderly people, newborn babies, and people who have certain chronic illnesses.

Help your body fight off the flu this year by getting a flu shot at one of FHN's flu shot clinics, open to the public at convenient locations across northwest Illinois.

If you are an adult under 65 years of age, you will get a quadrivalent vaccine that protects against 4 strains of influenza for \$28.

If you're 65 or over, you will receive a high-dose version of the vaccine (\$62). There will be no out-of-pocket expense if you are covered by Medicare Part B (please present Medicare card) or a Medicare HMO accepted by FHN (there's a list available at each location; covered persons MUST present the Medicare HMO card instead of the Medicare card for the billing process).

All immunizations not covered by Medicare or a Medicare HMO must be paid for by cash or check payable to FHN. The prices shown here are only available at these flu shot clinics; other rates may apply in FHN offices. No other insurance coverage can be accepted at these flu shot clinics, and per government regulations, no Medicaid cards can be accepted at these locations.

Because of federal guidelines to prevent identity theft, everyone must present a photo ID to receive an immunization. Children can only be immunized if a written prescription from a physician indicating dosage is presented.

You should NOT receive a flu shot at any of these clinics if you:

- Are allergic to eggs or the flu vaccine
- Are ill or have a fever
- Have a depressed immune system

Please contact your healthcare provider or call FHN toll-free at 1-877-6000-FHN (1-877-600-0346) ext. 945 for assistance in finding a provider if you can't receive a vaccination due to the above restrictions.

Gov. Rauner declares October Built in Illinois month

Gov. Bruce Rauner today kicked off National Manufacturing Month by proclaiming October Built in Illinois Month to showcase the importance of the industry to the Illinois economy.

“Illinois has a long, remarkable

manufacturing history,” the governor said. “It is an economic engine responsible for much of our state’s growth and prosperity dating back 200 years.”

Today, the industry is the second largest in Illinois. More than 12,000

firms employ nearly 600,000 Illinoisans whose products account for 13 percent of the state’s gross domestic product. Ninety-two percent of the state’s exports are manufactured products.

The governor’s Built in Illinois tour began with a stop at Hoffer Plastics in Elgin. The retail packaging company was founded in 1953 and was the winner of the 2015 Illinois Governor’s Sustainability Award.

“We are honored to have Governor Rauner visit us today and talk about manufacturing and workforce development,” said President and CEO William Hoffer. “It is an important part of our mission to develop our employees as well as always retain the ones we have. So we’re honored to have him here and hopefully we can work together on improving the employment situation in our area and certainly within the state.”

Illinois possesses many competitive advantages: transportation, logistics, technology, education, and, most important, the best trained, most productive workforce in the country,” Rauner said. “It is high time that government became an advantage, too, by reducing the cost of regulations you have to bear.”

The Built in Illinois tour will continue throughout the month of October.

SHARING CONFIDENCE

Chris Brooks knows your life’s mission doesn’t end with retirement. From family life and helping the developmentally disabled to representing his alma mater Monmouth College, people still rely on him. “I’ve been an OSF patient since 1996. They discovered I was pre-diabetic and anemic. They fixed my hand so I could keep playing the drums. OSF is part of the community. They are us. There’s a trust factor that just gives me a lot of confidence in my health. And that allows me to keep doing what I love.”

Superfoods to the rescue

Today, many people are looking to find healthier ways to live. They are being more intentional about getting the recommended 150 minutes of physical activity a week and choosing healthier foods.

Have you heard the term "superfoods" lately? Depending upon where you live, this may be a term you have not yet heard much about. Perhaps you have heard the term, but are not quite sure what it means? The term superfood is basically a marketing term used to describe foods with supposed health benefits. And although marketers like to use this buzzword, there is a lot to be said for these colorful and healthful foods.

Join University of Illinois Extension Nutrition and Wellness Educator, Diane Reinhold, for this 90 minute workshop – Superfoods to the Rescue. During this workshop learn what are examples of superfoods, what's so super about them, and if you should include them in your daily diet?

This program will be held Tuesday, Nov. 7, from 1-3 p.m. at the University of Illinois Extension office, 204 Vine, Elizabeth, IL. To register, call the Extension office at (815) 858-2273 or visit us online at <http://web.extension.illinois.edu/jsw/>. There is a \$5 fee which will cover the educational session.

Road construction on IL 26 north of Freeport

The Illinois Department of Transportation announces that construction work on IL 26 at the north edge of Freeport is underway on the bridge carrying IL 26 over the CN Railroad just north of Business US 20.

Drivers should be alert for the lane closures that will be in place while the bridge repairs are completed. The structure improvements are scheduled to be finished by mid-November.

Please slow down and use extreme caution while driving through all work zones.

Scales Mound Elementary and Junior High Schools kick off Accelerated Reader with a little STEAM

By Hannah Wiegel
CORRESPONDENT

On Thursday, Sept. 14, elementary and junior high Hornet readers enjoyed creating, collaborating, and participating in hands-on adventure with the Kendall Hunt Mobile Play Lab from Creative Adventure Lab out of Dubuque, Iowa. Students enjoyed building bridges, tunnels, furniture, walls, and much more with the giant foam blocks, lifesize LEGO blocks, and regular LEGOs.

Scales Mound School District takes great pride in its Accelerated Reader (A.R.) program. Each year, students in first grade through eighth grade set a quarterly reading goal with the mindset of reaching all four quarters. A school-year theme, various rewards, and fun activities are used to entice stu-

dents to set and meet their goals. This year's A.R. theme--CREATE--combines reading with creation, experimentation and collaboration. Our goal is to spark student imagination with hands-on opportunities to explore new concepts in STEAM areas--Science, Technology, Engineering, Art/Design, and Math.

Special thanks go out to the Scales Mound PTO for funding the Mobile Play Lab and a great deal of the A.R. program at Scales Mound. It is the goal of the Scales Mound School District Library's Accelerated Reader program to mirror Scales Mound School District's mission statement: From the top of Illinois, we are preparing today's learners for tomorrow's world by empowering all to reach their full potential.

Better health and vitality through better function

Compiled by Dr. Mike Wampfler, D.C.

People spend billions of dollars every year in attempts to slow the aging process. Millions of people spend hard earned money on wrinkle cream, hormone replacements, and medications in pursuit of a fountain of youth. Many known factors accelerate aging. Poor diet, lack of exercise & movement, smoking, and negative emotional stress make up a few of the major contributors to accelerated aging. Another significant factor that increases cellular aging comes from poor spinal and postural health. An intimate connection exists between spinal health and the function of the central nervous system. Normal posture and spinal health allow proper brain to body communication. However, virtually all aspects of human health and performance undergo negative influence when abnormal spinal health begins affecting function. The spine must be aligned and moving appropriately to allow proper communication within the nervous system. Halting acceleration of the aging process serves as one of the many benefits achieved through better spinal alignment and movement. These benefits originate through Chiropractic care. One method used to measure the effects of aging comes from assessing telomere (pronounced Tee low mere) length. Telomeres serve as cap-like structures located on the end of DNA strands. A relationship exists between telomere length and aging. Decreased telomere length coincides with the acceleration of the aging process. Improving health and longevity mean implementing health

Upon payment in full of the amount bid, the purchaser will receive a Certificate of Sale that

will entitle the purchaser to a deed to the real estate after confirmation of the sale.

The property will NOT be open for inspection and plaintiff makes no representation as to the condition of the property. Prospective bidders are admonished to check the court file to verify all information.

If this property is a condominium unit, the purchaser of the unit at the foreclosure sale, other than a mortgagee, shall pay the assessments and the legal fees required by The Condominium Property Act, 765 ILCS 605/9(g)(1) and (g)(4). If this property is a condominium unit which is part of a common interest community, the purchaser of the unit at the foreclosure sale other than a mortgagee shall pay the assessments required by The Condominium Property Act, 765 ILCS 605/18.5(g-1).

IF YOU ARE THE MORTGAGOR (HOMEOWNER), YOU HAVE THE RIGHT TO REMAIN IN POSSESSION FOR 30 DAYS AFTER ENTRY OF AN ORDER OF POSSESSION, IN ACCORDANCE WITH SECTION 15-1701(C) OF THE ILLINOIS MORTGAGE FORECLOSURE LAW.

You will need a photo identification issued by a government agency (driver's license, passport, etc.) in order to gain entry into our building and the foreclosure sale room in Cook County and the same identification for sales held at other county venues where The Judicial Sales Corporation conducts foreclosure sales.

For information, examine the court file or contact Plaintiff's attorney: CODILIS & ASSOCIATES, P.C., 15W030 NORTH FRONTAGE ROAD, SUITE 100, BURR RIDGE, IL 60527, (630) 794-9876 Please refer to file number 14-16-16254.

strategies that lengthen telomeres. Chiropractic adjustments prove to be one major strategy towards that goal. A recent study published in the *Journal of Molecular and Genetic Medicine* June 2017, showed that telomere length increased by 8.23 percent in patients that experienced just less than five months of corrective Chiropractic care. Scientific research continues to prove that better health and vitality exists through better system function. The first recipient of a Chiropractic adjustment experience restored hearing. That first Chiropractic testimony in 1895 spawned hundreds of millions of additional success stories. Chiropractic care never intended to isolate and correct spinal problems. The original science continues to accumulate depth and understanding about the spine's influence on health improvements that seem unrelated to the spine at first. The answer rests solely on the principle of function. The body functions better and heals itself to an astounding extent when people eliminate interference from the central nervous system. Anti-aging simply represents one of a multitude of results that occur every day for patients receiving Chiropractic spinal adjustments. Adjustments do not attempt to treat or cure isolated conditions. Chiropractors seek to increase the function of every cell and tissue through better neurological communication. Symptoms and conditions or various ailments tend to improve or disappear when proper spinal function restores to normal. Increased focus, performance, and even a slower aging process add to the many reasons why family members of all ages deserve to understand and experience the benefits of Chiropractic care for better health in any stage of life. The chiropractic method that was used in this study is known as CBP, which is the technique that our office is trained

in. Using this specific technique has allowed our office to experience amazing results for our patients that follow through with the intense programs. Perhaps there are blind spots in your health. Keep searching for answers to your health questions. Perhaps specific chiropractic care is the answer to your health concerns?

NOTICE OF SALE

PUBLIC NOTICE IS HEREBY GIVEN that pursuant to a Judgment of Foreclosure and Sale entered in the above cause on August 10, 2017, an agent for The Judicial Sales Corporation, will at 1:30 PM on November 13, 2017, at the office of Vincent Roth Toepfer & Leinen PC, 122 1/2 N Main St, Galena, IL, 61036, sell at public auction to the highest bidder, as set forth below, the following described real estate:

Commonly known as 410 E. WASHINGTON STREET, WARREN, IL 61087
Property Index No. 43-21-001-624-00.
The real estate is improved with a residence.

Sale terms: 25% down of the highest bid by certified funds at the close of the sale payable to The Judicial Sales Corporation. No third party checks will be accepted. The balance in certified funds/ or wire transfer, is due within twenty-four (24) hours. No fee shall be paid by the mortgagee acquiring the residential real estate pursuant to its credit bid at the sale or by any mortgagee, judgment creditor, or other lienor acquiring the residential real estate whose rights in and to the residential real estate arose prior to the sale. The subject property is subject to general real estate taxes, special assessments, or special taxes levied against said real estate and is offered for sale without any representation as to quality or quantity of title and without recourse to Plaintiff and in "AS IS" condition. The sale is further subject to confirmation by the court.

Upon payment in full of the amount bid, the purchaser will receive a Certificate of Sale that will entitle the purchaser to a deed to the real estate after confirmation of the sale.

The property will NOT be open for inspection and plaintiff makes no representation as to the condition of the property. Prospective bidders are admonished to check the court file to verify all information.

If this property is a condominium unit,

the purchaser of the unit at the foreclosure sale, other than a mortgagee, shall pay the assessments and the legal fees required by The Condominium Property Act, 765 ILCS 605/9(g)(1) and (g)(4). If this property is a condominium unit which is part of a common interest community, the purchaser of the unit at the foreclosure sale other than a mortgagee shall pay the assessments required by The Condominium Property Act, 765 ILCS 605/18.5(g-1).

IF YOU ARE THE MORTGAGOR (HOMEOWNER), YOU HAVE THE RIGHT TO REMAIN IN POSSESSION FOR 30 DAYS AFTER ENTRY OF AN ORDER OF POSSESSION, IN ACCORDANCE WITH SECTION 15-1701(C) OF THE ILLINOIS MORTGAGE FORECLOSURE LAW.

You will need a photo identification issued by a government agency (driver's license, passport, etc.) in order to gain entry into our building and the foreclosure sale room in Cook County and the same identification for sales held at other county venues where The Judicial Sales Corporation conducts foreclosure sales.
