FOR THE RECORD

ARE YOU A METAL MOUTH?

Despite our best efforts, most patients in our practice have had at least one cavity and filling in their lives, and if you are in your thirties or older, there is a good chance that at least some of your fillings were made of metal. Recently these fillings have become a controversial topic in the health press.

This material, known as "amalgam," is actually a combination of silver, tin, copper, zinc, and - at the top of the controversy - Mercury.

Many of us remember being introduced to mercury in an elementary school science class. As the only metal that is liquid at room temperature, it was always fun when the teacher showed us how an actual metal can flow inside a tube, but drop the tube or break a mercury filled thermometer and look out! As toxic poison it had to be cleaned up with extreme caution.

So if mercury is so dangerous, what the heck is it doing in your mouth? While metal amalgam fillings do give off small amounts of mercury vapor, most researchers, including The American Dental Association Council On Scientific Affairs, have concluded that unless there is a specific allergy these types of fillings pose no personal health risk. But visit our office today and you will find that we recommend doing "fillings" (also known as "dental restorations") with other materials. Why? There are many reasons. Here are just a few.

1. **BEAUTY.** There is no doubt about it - silver fillings are not attractive. The modern materials we use these days are tooth colored ones, so only your dental team needs to know that your beautiful smile once contained a few cavities.
2. **BONDING.** While a traditional filling is simply wedged into your tooth, making it more prone to breakage, most of the more modern materials actually adhere to the tooth itself. In many cases this means that less healthy tooth need to be removed in order to perform a proper restoration, and these materials are less prone to "leaks" where decay and bacteria can easily form at the junction of the tooth and restoration.
3. **EXPANSION and Contraction.** Ever have trouble removing the lid on a jar? Run the lid under some hot water and it pops right off. Why? The heat causes the metal lid to expand slightly. Well, the same thing happens with an amalgam (metal) filling. And years of expansion and contraction from eating hot and cold food can damage the tooth and the restoration. Choose a more modern material and go have that ice cream and coffee. Yum!!

Any questions? at Rockton Dental Care your health and comfort come first! Feel free to give us a call at 815-624-2626 to schedule an appointment or to discuss any dental health matters

Announcements

CHILD CARE DISCLAIMER
No individual, unless licensed or holding a permit as a child care facility, may cause to be published any advertisement soliciting a child care service. A child care facility that is licensed or operating under a permit issued by the Illinois Department of Children and Family Services may publish advertisements of the services for which it is specifically licensed or issued a permit. Rock Valley Publishing strongly urges any parent or guardian to verify the validity of the license of any facility before placing a child in its care.

DISCLAIMER NOTICE This publication does not knowingly accept fraudulent or deceptive advertising. Readers are cautioned to thoroughly investigate all ads, especially those asking for money in advance.

HOTELS FOR HEROES - to find out more about how you can help our service members, veterans and their families in their time of need, visit the Fisher House website at www.fisherhouse.org.

FIND BARGAINS IN THE CLASSIFIEDS

One way we
can help each
other get
through these
challenging
times is to keep
our dollars local.
Here are three
good reasons.

Reason #1: Shopping locally saves you gas and wear and tear on your vehicle.

Reason #2: When you spend your money locally, you support the businesses whose property taxes pay for our municipal services.

Reason #3: Many of our youth programs are supported and sponsored by local businesses and if we don't support them, they can't support our kids.
