Breakthrough Treatment Available In Winnebago

Dr. Johnson uses the Sigma Instrument to analyze a patient's spine and pin-point areas of Nerve Impingement Syndrome.

Winnebago, IL - Imagine forty years ago if you were told that lasers would replace scalpels in surgery or that robotic instruments would build cars; you may not have believed it. By the same token, would you believe that chiropractic treatments could be performed using a special hand-held instrument developed by NASA scientists; all while you were sitting in an upright position without any turning or twisting movements?

According to Dr. William Johnson, "This new form of computerized treatment is so gentle and effective, that it amazes even the most skeptical patients. It's called the Sigma Instrument and is the latest, state-of-the-art technology in existence today, and the only one in the Winnebago area."

The Sigma Instrument can safely and gently analyze and treat the spine and other joints to remove the nerve impingement that is often the cause of pains in the low back, neck, shoulder and elsewhere in the body. It also works on a variety of muscular conditions to loosen tight muscles with ease and comfort. Many patients say that it's like getting a mini-massage. Even patients with knee, hip and foot problems such as plantar fasciitis are being helped. It is also covered by most insurance companies including medicare.

Dr. Johnson says that, "The secret to the Sigma Instrument lies in its ability to deliver an extremely precise adjustment." He says that, "Even though traditional forms of adjusting also work, people are drawn to this new technique because of how gentile it is and does not involve any twisting, especially in the neck.

Many people love getting adjusted with traditional manual techniques, all of which are safe and effective. But there are a large number of people who never get to experience the amazing benefits of chiropractic because they are scared to have their spine adjusted in that way," says Dr. Johnson. Now, there is no longer a reason to be weary.

The Sigma Instrument is perfect for anyone who has been thinking about going to a chiropractor, but hasn't yet made that decision. Dr. Johnson wants everyone to be able to experience these same benefits and if you have any of the following conditions, the Sigma Instrument may be the answer you've been looking for...

- | | | |
|---------------------|--------------------------|------------------------|
| • Low back pain | • Sciatic pain | • Neck & Shoulder pain |
| • Headaches | • Carpal Tunnel Syndrome | • Arthritis |
| • Scoliosis | • TMJ | • Fibromyalgia |
| • Planter Fasciitis | • Knee or hip pain | • Sports Injuries |

Treatment with the Sigma Instrument is consistent, measurable and extremely gentle. Call our office today and mention this article to receive a **FREE Sigma Instrument analysis to pin-point your problem areas and to see how the Sigma Instrument can help.** Call 815-335-2820 today to reserve your free Sigma Instrument Analysis Scan. This technological marvel can help you return to a healthier lifestyle. You may no longer have to live with a persistent, painful condition. Call us today.
